Structured Cabling

A Leader with over seventy-five years' experience, Verizon is a premier provider of high-growth communications services. Verizon is a member of EIA/TIA (Electronic Industries Association and the Telecommunications Industry Association), and is actively working with other members to develop the standards for the cutting edge of the communications industry's technological developments and implementation.

Professional Services. Verizon offers on-site, vendor-independent consulting and engineering expertise in a wide range of specialty and general network disciplines. A team of Verizon project professionals is prepared to implement your planning and execution requirements.

As Project Management Professionals (PMP), members of BICSI (Building Industry Consulting Services International), and Registered Communication Distribution Designers (RCDD), Verizon's professionals are experts in telecommunications project design and implementation. Verizon offers products and services to support your communications needs.

Plan for the Future. Your **Structured Cabling Infrastructure** is the backbone of your network and has the longest life cycle of any network component. When planning for your structured cabling system, consider a universal platform capable of supporting both current and future applications with few upgrades. Ultimately, this can save your business time and help control costs. Structured Cabling designed by Verizon will handle all your telecommunications needs including: voice, high-speed data and video, Internet, and VoIP.

Single Source. Verizon provides solutions from the industry's major manufacturers and suppliers of communications components and installers. Verizon can be your single source for quality products and installations, and competitive pricing. Verizon will integrate as much as you desire into one project allowing you to deal with only one entity. Verizon's history of over seventy-five years has given us experience beyond our competition. Whether you're cabling in your building, between buildings, on poles or underground, we are the team to call.

Our Focus. We are committed to providing a cost-effective, advanced system that can meet your communications needs now and in the future with our products and services. When you choose Verizon, you can benefit from these reliable and affordable products and services:

- **Installation**

 - Backbone solutions

features

- Expert Project Design and Installation
- Single Source for Product and Installation

benefits

- Quality product that is compliant with industry standards and customized per customer specifications
- Saves time and money

customer premises equipment

- Data Center and Storage Area Networks
- Data Center build-out including raised floors, HVAC, fire suppression, and power distribution systems.

- **Services**

- Comprehensive network design
- Complete job validation
- Performance bandwidth requirements
- Infrastructure audits
- Troubleshooting
- Fusion Splicing
- Service and support
- Life cycle management

Suppliers and Manufacturers. Verizon offers products from a number of major distributors, including Graybar, Anixter, Accutech, and CSC and, along with Verizon Logistics can quickly deliver the necessary materials on schedule, to jobsites virtually anywhere in the country. Verizon also provides solutions from major connectivity and cabling manufacturers, which include Systimax, Berk Tek, Mohawk, CommScope, Corning, Panduit and Ortronics to mention a few.

Documentation. No job is complete without the documentation. Verizon can supply As-built documentation in hard copy and CD formats using Autocad®, as well as all cable test results and warranties. This documentation may consist of any of the following:

- Inside and outside plant drawings
- Logical and physical layouts
- Voice, data and video views
- Riser cabling drawings
- Horizontal distribution and station views
- Rack and closet drawings
- Detailed test reports

Quality. Verizon is a strong proponent of quality installations. Verizon designs and builds to the current codes and EIA/TIA standards, providing timely installation that fits your unique needs.
